

Information About The Service

Here is a summary of all the important information you need to know about Telecom West's ISDN Multiline plans.

Availability:

ISDN Multiline is not available to customers in all areas. Availability depends on several factors including whether it is available at the relevant exchange, the length of the cable to the nearest exchange and the quality of the existing copper pairs that the service runs over.

Requirements:

ISDN requires compatible telephony equipment in order for this service to function.

Minimum Term:

Our ISDN Multiline plans are available on a 24 or 36 month agreement.

Included Features:

- The service is scalable!
- Service provided on Optus infrastructure!
- Australian based customer service!
- **No flagfall**, even on international calls!
- Top 30 international destinations!

Information About Pricing

Telecom West offers 3 ISDN Multiline plans, each plan is designed to suit different calling habits. If you require assistance determining which plan suits your needs best, please call our sales department on 1300 739 331.

Monthly cost:

Plan Name	Minimum Monthly Charge	Installation Fee	Total Min Cost* (24/36 Month Contract)
Multiline 10	\$169.95	\$199.95	24 = \$4,078.80 / 36 = \$6,118.20
Multiline 20	\$329.95	\$199.95	24 = \$7,918.80 / 36 = \$11,878.20
Multiline 30	\$499.95	\$199.95	24 = \$11,998.80 / 36 = \$17,998.20
100 No. DID range	\$39.95		

*The total minimum cost on a 24 or 36 month contract is the minimum monthly charge multiplied by the amount of contracted months.

Call cost:

Plan Names	Local Calls	National Calls	Calls to Mobiles	Calls to 13/1300	International Calls*
ISDN Multiline 10/20/30	5c/per min	5c/per min	20c/per min	40c/per call	10c/per min

No Flagfall on any calls listed above.

Calls to Mobile, Local & National are charged per 60 second block.

* Call rate only applies on calls to landlines to the following top 30 international destinations:

United Kingdom, China*, New Zealand, United States*, Japan, Malaysia*, Ireland, Canada*, Hong Kong*, Singapore*, Germany, Belgium, Italy, Netherlands, Portugal, Sweden, Spain, France, Argentina, Denmark, Finland, Greece, South Korea, Poland, Puerto Rico*, Vatican City*, Virgin Islands(USA)*, Mariana Islands*, Hungary & Taiwan. *fixed wire to mobile included

View all our international call rates at www.telecomwest.com.au/optusinternationalrates.pdf

Early Termination Fee:

If you choose to cancel your ISDN service or it is disconnected for any reason within the 24 or 36 month contract term you will be charged your minimum monthly commitment as per your agreement with us multiplied by the months remaining in your contract plus a penalty fee of \$500.00 .

You must also provide 30 days notice to us to disconnect a service.

Setup Fee:

All services are required to each pay an installation fee as per the above pricing table.

Billing:

All our ISDN Multiline plans are post paid. As a result, your first bill will be pro rata meaning you will be charged from the day your service was activated until the end of the billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.

ISDN Relocations:

ISDN Relocations are treated as entirely new installations as there is physical work required both at your premises and Optus exchanges. A relocation fee of \$899.95 applies to each service relocated. For customers moving within buildings, that require a MDF or NTU to be moved to a different location (either same building or nearby building with the same lead in) we charge on a time and materials basis. If this service is required please request at time of signing contract. There will be extra charges for this service.

Order Cancellation Fees:

For all our ISDN plans, if an order is placed and subsequently cancelled during the installation an order cancellation fee applies. The order cancellation fee is based on the early termination fees above.

Other Fees:

Customers may request for installations to occur outside of normal Optus business hours. If this is required it should be requested at time of signing contract. There will be extra charges for this service.

The SDP or Service Demarcation Point is in the buildings MDF. Cabling after this point (MDF to IDF and internal office) is the responsibility of the customer to ensure is operational and compatible. We will organise cabling if required and charge on a time and materials basis. If this service is required please request at time of signing contract. There will be extra charges for this service.

Optus may install an NTU at the customer site for each service. The NTU is provided for use solely as part of an ISDN service. Ownership of this device remains with Optus. End users must not modify the configuration of the NTU unless instructed to do so in writing or email by Optus. If an NTU is lost or damaged, we will charge the customer for its replacement.

Extra fees apply for value added services and/or optional features.

Other Information**Usage Information:**

Customers can obtain information on their usage at <https://customerportal.telcoinbox.com/index.php?r=site/login&id=348>

Customer Service Contact Details:
